

## Gradual price adjustments

[Home](#) / [News](#) / Gradual price adjustments

### Price adjustments from January 2022

We will have to adjust our prices in some segments from January 2022 and ask for your understanding.

Many factors play a role in this measure:

- Almost all shipping service providers will increase their prices from 2022. Dachser, for example, by around 6% nationally.
- We constantly improve our quality and know-how, as well as we invest continuously in the training and education of our employees.
- Improvement and further development of our test stations so that we can offer and deliver the highest quality for our customers.
- In-house wage development. So that we can continue to employ

our skilled workers and specialists  
in the future and drive forward the  
expansion of our team.

Of course, industrypart is always  
striving to improve the services.  
Therefore you may expect from us in  
the context of these announced price  
increases, you can also expect an  
increase in quality and improvement in  
the execution of orders.

**We are also very happy to answer your  
open questions on this subject.**
