

## Authentication for drives

Home / Our service / Authentication for drives

### Mitsubishi HC-PQ23-UE

1 We received the Mitsubishi HC-PQ23-UE servo motor to check for authenticity.

## Authentication for drives

Wir verifizieren Ihre Antriebe auf Echtheit

Do you suspect that your purchased drives do not comply with the standards and norms.

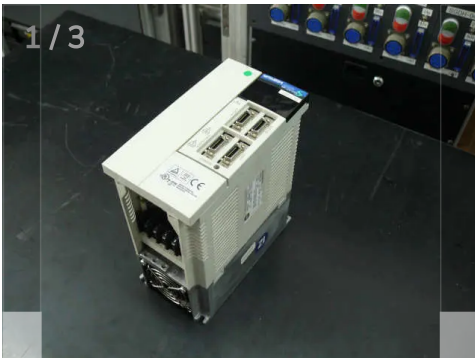

Your drives, despite being purchased as new, do not provide the functionality they should. Drives are apparently and qualitatively flawless, but still generate error procedures or error messages.

Then we would like to introduce you our authenticity testing service

We can test the purchased drives for you and also check for authenticity and genuineness. Are the installed parts really new and also match the specified type designation?

Mitsubishi MR-J2S-  
350B-S041U703

The customer purchased the Mitsubishi MR-J2S-350B-S041U703 from an Asian dealer. After checking the device, it turned out to be a standard version without the S041U703 extension. the S041U703 extension.

Sample procedure for an authenticity check of your drives

Detailed inventory of  
✓ original engine/drive data and parameters.

Functional test I/O of  
✓ motor/drive (e.g. on test bench)

Delivery and final  
✓ protocol handover for the customer on the authenticity check
